law!**

**Residuals from legally sold and rented DVDs help to pay
Crew members' health and pension benefits.
Piracy hurts those who make the films you love!**

This booklet will give you a glimpse of the various skills covered by the IATSE District 2 locals...and what the requirements are to join them

Over the past eighty (80) years Local 695 has met the demands required in the ongoing evolution of the electronic recording chain concerning audio, video and projection work.

Local 695 initiated the first technical educational programs aimed at meeting the ever-changing production audio/video recording demands. Local 695's current Education Director, Laurence Abrams, with additional support from Contract Services Administration Training Trust Fund (CSATTF), has continued the legacy instituted by the original executors of the 1930 IATSE charter.

Simply stated, history proves the Producer who employs a Local 695 audio, video or projectionist is employing an established engineer or technician having the technical expertise to meet the production demand cost efficiently. A Local 695 "Membership Card" is a validation for the Producer/employers expectations.

Awards: Since the Awards inception, IATSE – Local 695 members have received serious national recognition for their work on production recording and technical achievement from the "Academy of Arts and Sciences," and Emmy's from the

Local 800 Art Directors, Scenic, Title and Graphic Artists, Set Designers and Model Makers, Illustrators and Matte Artists

Jurisdiction: Art Directors – NATIONAL (except for New York City and vicinity, with regional offices in Illinois, New York, and North Carolina).

Scenic Title and Graphic Artists; Set Designers and Model Makers; Illustrators and Matte Artists – LOS ANGELES COUNTY (and outside LA County if transported from LA County outside LA County.)

Jobs: IATSE Local 800, the Art Directors Guild (ADG), represents 2100 members who work as Production Designers, Art Directors and Assistant Art Directors throughout the United States, as well as Scenic, Title and Graphic Artists, Set

Designers and Model Makers, and Illustrators and Matte Artists who work principally in Los Angeles.

Our Production Designers and Art Directors are the creative people who design the “look” of motion pictures, television shows and commercials. The Local’s equally talented Scenic, Title and Graphic Artists execute the “artistic” elements of those designs for film, television, legitimate theatre, opera and sports broadcasting and, as well, work in independent shops to produce artwork for commercial venues such as commercials, concerts, music videos, trade shows, themed amusement parks, themed restaurants and museums. The Illustrators and Matte Artists create some of the most stunning images, thrilling action, incredible characters, intricate props, otherworldly vistas, and dynamic sequences that grace the visual media that we enjoy. Set Designers and Model Makers prepare working drawings used in the construction of motion picture sets, set models, backgrounds, miniatures or any similar elements.

Hiring Practices: Art Directors and Assistants, Set Designers and Illustrators, Model Makers and Matte Artists are hired from the Industry Experience Roster and the current availability lists, which are held at the Local. The Scenic, Title and Graphic Arts are “non-rostered” and the Local encourages prospective employers to hire from an availability list held at the Local.

To Join: Any individual who works for a signatory company in a Local 800 covered classification is eligible for union membership after thirty calendar days. Those who are “organized” while working on a non-signatory project are also eligible to join. In most cases, those who want to join as Art Directors and Assistants, etc., must qualify for the Industry Experience roster as well.

Benefits: Members who work under the Basic Agreement are eligible for the MPI Plans which include health, pension and defined contribution plan benefits. Members, who work under our Independent Broadcast Agreements, Independent Shop Agreements and IA agreements other than the Basic may, if they are on staff, receive benefits from the employer; or if they are considered daily or weekly hires, they may receive their health benefits through the Entertainment Industry Flex Plan and a retirement package through the Local 33 401(k) Pension Plan.

The Art Directors branch currently sponsors a training program for the next generation of Art Directors. It has been designed to provide mentorship, supervision and on-the-job training to future Production Designers/Art Directors. The ultimate goal is to provide Production Apprentice (PA) Trainee participants

with a clear and direct path towards obtaining real-time workplace training, and, on completion of their term of apprenticeship and a satisfactory mentorship review, membership within the ADG Art Directors branch as Assistant Art Directors.

At minimal or no cost, CSATTF and ETP funded skills training are available to those members who qualify.
